

**REMARKS**

On May 2, 2008, the Examiner contacted Applicants' representative to inform him that the claims would be considered allowable if one additional matter is taken care of. This additional matter relates to a potential obviousness-type double-patenting rejection of claim 91 based on allowed claim 6 in the continuation application, which as of the date of this paper has been allowed.

In order to overcome any potential double-patenting rejection, claim 91 has been amended to recite the feature of claim 45. Applicants submit that this amendment is sufficient to place the application into condition for allowance.

To the extent necessary, a petition for an extension of time under 37 CFR § 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this, concurrent and future replies, including extension of time fees, to Deposit Account 16-0607 and please credit any excess fees to such deposit account.

Respectfully submitted,
